The public is invited to attend a showcase of this year's Arts Mentorship Students. Talented regional high school students will either perform or exhibit their work.

As participants in the LRAC Arts Mentorship Program, students auditioned and were selected to study over the summer with professional artists or attended workshops in their chosen arts disciplines.

This showcase is an excellent opportunity to see the best young artists and performers in our region. Congratulations to the students and mentors for a successful mentoring experience.

Applications for next year's Arts Mentorship Program are being accepted starting Dec. 1, 2018. Contact Rebecca Davis, @ [LRAC4@LRACgrants.org](mailto:LRAC4@LRACgrants.org) or call 218-739-5780.

### Classical Varsity: Competition and Showcase For High School Music Composers and/or Performers

classicalMPR

**Minnesota Varsity** showcases the top high-school musical talent from Classical Minnesota Public Radio's terrestrial broadcast area (includes parts of MN, WI, ND, SD, ID and the UP of Michigan). Teens in these regions are invited to compete in **Minnesota Varsity** as performers or as composers.

For seven seasons ACF has partnered with Minnesota Public Radio to offer this distinctive composition contest. Students submit one original piece for the selected instrumentation, which changes each year to offer new creative challenges. The composer mentor and panel of performers play through all the submissions and select five students who advance to the featured round of the competition, where they participate in a full day of coaching and workshopping their pieces, plus recording interviews at MPR's Studio M.

This season we're excited to welcome nationally celebrated composer **Edie Hill** as our program mentor! After edits are turned in and reviewed, two composers are selected for the Showcase Concert: a live radio broadcast from Ted Mann Concert Hall, which is later available to stream on the MPR website.

Composers ages 14-18 and grades 9-12 are invited to submit one original score (3-7 minutes in length) for any combination of the specific instruments listed below.

## LRAC Gallery Exhibits

### Main Gallery

#### **"Snow Country Prison: Interned in North Dakota"**

Exhibit dates: September 21 - Dec. 21, 2018  
Public Reception, Oct. 16, 5-6:30 pm  
Gallery hours, M-F, 9-5  
137 S. Mill St., Fergus Falls, MN

**Are you surprised to know that there were WWII prisoner of war camps in Minnesota and North Dakota?** You now have a rare opportunity to see what life was like for the 3,850 German and Japanese interned at Fort Lincoln, North Dakota from 1942-1946.

The Lake Region Arts Council is hosting the exhibit "Snow Country Prison: Interned in North Dakota". The exhibit is on loan from the ND Museum of Art. Teachers are encouraged to book a tour of this exhibit for their classes. Contact the LRAC office to reserve a time and for lesson plans.

This exhibit combines official photographs from Border Patrol and INS (Immigration and Naturalization Services) with dozens of haiku (small, graceful Japanese poems). The haiku were provided by Satsuki Ina, whose father spent eighteen months as a prisoner in Fort Lincoln. The reader is struck by how accurately Ina's father evokes - with singular and simple words - the landscape, the season, and the weather of this new country, coupled with the loneliness and grief that lie at the heart of internment. Without these poems, the "official" photos of ski jumps, beer gardens, and musicals would define those years as one long picnic.

**THIS EXHIBIT IS A ONCE IN A LIFETIME EXPERIENCE YOU WON'T WANT TO MISS!**

### Solo Gallery

#### **Mike Weatherly - Printmaking**

Exhibit dates: October 1 - Nov. 30, 2018  
Public Reception, Oct. 16, 5-6:30 pm  
Gallery hours, M-F, 9-5  
137 S. Mill St., Fergus Falls, MN

Although he has received notable awards/honors/grants, exhibited in countless solo and group shows throughout Minnesota, and has been an art instructor for many years, Mike Weatherly still considers himself "an emerging visual artist."

He says, "I am constantly inspired by everyday events and my work tends to focus on things that remind us of the natural world, things we see, people we have met, and places we have been. Art can speak to all of us. It can lift spirits, provoke memories, create emotions and connect the past to the present."

Mike recently incorporated chine collé into his prints. Chine collé is a special technique in printmaking in which the image is transferred to a surface that is bonded to a heavier support in the printing process. This allows the print maker to print on a much more delicate surface, such as Japanese paper or linen, which pulls finer details off the plate.
